

## **ATHLETICS OMNIBUS – COMPILER A TOP 10 PERFORMANCE LIST**

**From the Athletics Omnibus of Richard Stander, South Africa**

### **1. WHY MUST PERFORMANCE LISTS BE COMPILED?**

As a member of the International athletics family, Athletics South Africa has an obligation to supply the IAAF, AAC and other organisations with accurate performance statistics of athletes participating in South Africa. This performance statistics must be available on a regular basis. It is therefore very important that South Africa keep an accurate record of the performances of our top athletes.

To ensure that the gathering and preparation of statistics in South Africa is done accurately, each province must have a statistics committee in place that prepares performance statistics of the athletes in its province in the form of a Top 10 Performance List.

There should be a Performance list in every official event in athletics as listed in the IAAF Rule Book, as well as all official events take takes place at development levels that serve as feeders to Selectors for International Competitions such as the IAAF World Junior and Youth Championships.

Only performances of athletes that participate at credible competitions e.g. competitions listed on the IAAF, ASA and Provincial Events Calendars can be considered for listing on the Performance Ranking Lists. The performances of all athletes participating in the 100m are listed according to the quality of the performance. The fastest time will be listed as the no. 1 performance, and the slowest time will be listed at the bottom of the Performance List.

The Performance Lists must be prepared in a standardised format to smoothen the task of providing the statistics to the IAAF.

Due to the volume and range of information that must be processed, the persons dedicated to prepare the statistics must have a high sense of responsibility and commitment to prepare the statistics with 100% accuracy according the required format.

Any mistake in the statistics can lead to athletes not selected to represent their province or country, overlooked for merit awards, etc. with obvious disastrous consequences for the athlete and the sport.
